

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The woman's kirtle of the fourteenth century was a close-fitting dress described in Strutt, ii. 238; and the kirtle is mentioned in Launfal (233) as being laced tightly to the body. It seems to have been a mark of servitude or disgrace to appear in a kirtle only. The term is still retained in the provinces in the sense of an outer petticoat. When a long kirtle is spoken of, or when it is implied that the kirtle is long, it must be understood as having a kind of train or petticoat attached to it; and a half-kirtle is either part of this joint article of dress. Three other boys of the adverse side pitch successively a piece of stick, a little bigger than one's thumb, called *cat*, to be struck by those holding the sticks. On its being struck, the boys run from hole to hole, dipping the end of their sticks in as they pass, and counting one, two, three, &c. as they do so, up to thirty-one, which is game, or the greater number of holes gained in the innings may indicate the winners as in cricket.

Shakespeare is said to have given his godson, a child of Ben Jonson, a dozen *latten* spoons, and told the parent he should translate them. The pun is not uncommon in writers of Shakespeare's time, but the old word *latten*, or *latoun*, was not plate-tin, and the provincialism now in use must not mislead us, as it has Brockett, to attribute the same meaning to the archaism. It was a kind of mixed metal, very much resembling brass in its nature and colour. Various articles were made of it, as a cross, Chaucer, *Cant. T.* 701: a

basin, Piers Ploughman, p. 462, &c. According to Mr. Hunter, the old brasses in churches are for the most part of latten.

Whether the *lettice-cap* was a cap in which this fur was introduced I am not certain, but mention is made in an early MS. of "an ermine or lattice bonnet," Planché, p. 262. Nares has fallen into unnecessary conjectures by not understanding this meaning of the term.

Hence the phrase came to be used for any noisy riot. It was also called *level-sice*, and Skelton, ii. 31, spells

- it *levell suse*. Blount gives the following very curious explanation, "level-coile is when three play at tables, or other game, by turns, onely two playing at a time, the loser removes his buttock, and sits out; and therefore called also hitch-buttock," ed. 1681, p. 374.

The explanations of this word given in Tyrwhitt, the Oxford Gloss. Architecture, Pr. Parv. p. 300, &c. are certainly erroneous.  
Alle his devocion and holinesse

**MANDRAKE.** The mandragora, *Lat.* It is often mentioned as a narcotic, and very numerous are the superstitions regarding it. It was said to shriek when torn up. "Mandrakes and night-ravens still shrieking in thine eares," Dekker's Knights Conjuring, p. 49.

The male mandrake hath great, broad, long, smooth leaves, of a deepe greene colour, flat spread upon the ground; among which come up the flowers of a pale whitish colour, standing every one upon a

single smal and weak footstalk, of a whitish green colour; in their places grow round apples of a yellowish colour, smooth, soft, and glittering, of a strong smel; in which are contained flat and smooth seeds, in fashion of a little kidney, like those of the thorn apple. The roote is long, thick, whitish, divided many times into two or three parts, resembling the legs of a man, with other parts of his bodle adjoining thereto, as the privie parts, as it hath bene reported; whereas in truth it is no otherwise then in the rootes of carrots, parsneps, and such like, forked or divided into two or more parts which nature taketh no account of. There have been many ridiculous tales brought up of this plant, whether of old wives or some runnagate surgeons or phisickmongers, I know not (a title bad inough for them) but sure some one or moe that sought to make themselves famous in skillfull above others were the first brochors of that errour I spake of. They adde further, that it is never or verie seldome to be founde growing naturally but under a gallows, where the matter that hath fallen from the dead bodie hath given it the shape of a man; and the matter of a woman, the substauce of a female plant, with many other such doltish dreames. They fable further and affirm, that he who would take up a plant thereof must tie a dogge thereunto to pull it up, which will give a great shriek at the digging up; otherwise if a man should do it, he should certainly die in short space after; besides many fables of loving matters, too full of scurrillitie to set forth in print, which I forbear to speake of; all which dreames and old wives tales you shall from hencefoorth cast out of your bookes and memorie, knowing this that they are all and every part of them false and most untrue. For I myselfe and my servaunts also have digged up, planted, and replanted verie many; and yet never could either perceive shape of man or woman, but sometimes one straight roote, sometimes two, and often sixe or seven branches, coming from the maine great roote; even as nature list to bestowe upon it as to other plants. But the idle drones that have little or nothing to do but cate and drinke, have bestowed some of their time in carving the rootes of Brionie, forming them to the shape of men and women, which falsifying practise hath confirmed the errour amongst the simple and unlearned people, who have taken them upon their report to be the true mandrakes. *Gerard's Herball*, ed. 1597, p. 280.

below Barham Downs, which sometimes ceases  
to flow for two or three years, and then breaks  
out very copiously, and runs into the lesser  
Stour at Bridge. Warkworth, Chronicle, p.

**NAKED-BED.** A person undressed and in bed  
was formerly said to be in naked-bed, and,  
according to Brockett, the phrase is still in  
use applied to any one entirely naked. The  
term was probably derived from the ancient  
custom of sleeping without night linen, which  
was most common in this country during the  
thirteenth, fourteenth, and fifteenth centuries.  
The Danes and Saxons appear to have been  
far more civilized in this respect. In Isam-  
bras, 102, a mother and her children are  
described as escaping from a fire "alle als  
nakede als they were borne;" but it would  
seem from a passage in Piers Ploughman, p.  
273, that the practice was not quite universal.  
See Mr. Wright's notes, p. 557; Ritson's  
Anc. Pop. Poet. p. 49. Compare also Armin's  
Nest of Ninnies, p. 24, "Jemy ever used to  
lye naked, as is the use of a number." Two  
very curious anecdotes in Hall, Henry VII. ff.  
20, 53, may also be consulted. "In naked  
bedde, au liect couché tout nud; in naked

bedde, *couchez nud a nud*, or *on les trouva coucher ensemble nud a nud*," Palsgrave. Ne be thi winpil nevere so jelu ne so stroutende, Ne thi faire tail so long ne so traillende, That tu ne schalt at ewin al kuttild bilevin, And tou schalt to bedde gon so nakid as tou were [borin]. *Reliq. A Cumbrian peasant pays his addresses to his sweetheart during the silence and solemnity of midnight, when every bosom is at rest, except that of love and sorrow. Anticipating her kindness, he will travel ten or twelve miles over hills, bogs, moors, and mores, undiscouraged by the length of the road, the darkness of the night, or the intemperance of the weather; on reaching her habitation, he gives a gentle tap at the window of her chamber, at which signal she immediately rises, dresses herself, and proceeds with all possible silence to the door, which she gently opens, lest a creaking hinge or a barking dog should awaken the family. On his entrance into the kitchen, the luxuries of a Cumbrian cottage—cream and sugared curds—are placed before him by the fair hand of his *Dulcinea*; next, the courtship commences, previously to which, the fire is darkened or extinguished, lest its light should guide to the window some idle or licentious eye; in this dark and uncomfortable situation (at least uncomfortable to all but lovers), they remain till the advance of day, depositing in each other's bosoms the secrets of love, and making vows of unalterable affection.

cured in time, it may perhaps grow to a worse mischief, as to the falling evil, madness, or apoplexy. But I could never learn that horses were subject to this disease, neither by relation, nor yet by reading, but only in an old English writer, who sheweth neither cause nor signs how to know when a horse hath it, but only teacheth how to cure it with a fond foolish charme, which because it may perhaps make you, gentle reader, to laugh, as well as it did me, for recreation sake I will here rehearse it. Take a flint stone that hath a hole of his owne kinde, and hang it over him, and write in a bill,

In nomine Patris, &c.

The following account of them is given by a writer of the last century:—A cant name for a wretched set of men and women, whose whole delight is to live by begging, thieving, &c. or any thing but honest industry, and who to move compassion in the spectators, the women go about with one, two, or more small children, in a dirty, ragged condition, who are continually crying or making wry faces, as though starved with hunger, and the women making a lamentable cry, or doleful tale, of being a distressed widow, and almost starved, &c. at the same time her male companion lies begging in the fields, streets, &c. with cleymes or artificial sores, made with spearwort or arsenick, which draws them into blisters, or by unslacked lime and soap, tempered with the rust of old iron, which being spread upon leather, and bound very hard to the leg, presently so frets the skin, that the flesh appears raw, and shocking to the sight; the impostor at the same time making a hideous noise, and pretending great pain, deceives the compassionate, charitable, and well-disposed passengers, whom, when opportunity presents, he can recover his limbs to rob, and even murder, if resisted.

See *Mall* (4). James I. mentions *palle maille* among the exercises to be used *moderately* by Prince Henry. "*Pale maille* a game wherein a round bowle is with a mallet struck through a high arch of iron, standing at either end of an alley, which he that can do at the fewest blows, or at the number agreed on, wins. Palgrave has, "paltocke of lether, *pellice*; paltocke a garment, *halcret*; paltocke a patche, *palleteau*." The second meaning apparently refers to some defensive garment. Paltock seems also to have been applied to some ornament or ornamental cap worn on the head of a person high in authority.

They that repaire to this place for devotion his sake use to continue therein foure and twentie houres, which dooing othirwhile with ghostlie me-

ditions, and otherwhile a dread for the conscience of their deserts, they sale they see a plaine resemblance of their owne faults and vertues, with the norror and comfort thereunto belonging, the one so terrible, the other so iolous, that they verelie deeme themselves for the time to have sight of hell and heaven. The revelations of men that went thither (S. Patrike yet living) are kept written within the abbeye there adjoining. When anle person is disposed to enter (for the doore is ever spard) he repairth first for devise to the archbishop, who casteth all pericles and dissuadeth the pilgrime from the attempt because it is known that diverse entering into that cave, never were seene to turne backe againe. But if the partie be fullie resolved, he recommendeth him to the prior, who in like maner favourable exhorteth him to choose some other kind of penance and not to hazard such a danger. If notwithstanding he find the partie fullie bent, he conducteth him to the church, injoineth him to begin with praier and fast of fifteene dales, so long together as in discretion can be indured. This time expired, if yet he persevere in his former purpose the whole convent accompanieth him with solemne procession and benediction to the mouth of the cave, where they let him in, and so bar up the doore untill the next morning. And then with like ceremonies they await his returne and reduce him to the church. If he be seene no more they fast and praie fifteene dales after. Touching the credit of these matters, I see no cause, but a Christian being persuaded that there is both hell and heaven, may without vanitie upon sufficient information be resolved, that it might please God, at sometime, for considerations to His wisdom known, to reveale by miracle the vision of joles and paines eternall. But that altogether in such sort and by such maner, and so ordinallie, and to such persons, as the common fame dooth utter, I neither beleve nor wish to be regarded. I have conferrd with diverse that had gone this pilgrimage, who affirmed the order of the premisses to be true; but that they saw no sight, save onelie fearefull dreams when they chanced to nod, and those they said were exceeding horrible. Further they added, that the fast is rated more or lesse, according to the qualitie of the penitent.

M. Kneaworth, mayir. Then came in dewke Phillip, of Burgon, agaynst his wille with tempest of wethir, as he was going into Spayn, whiche afterward was kyng of Castelle. Then was Polles wethir-cock blown down.

Old St. Paul's was in former times a favorite resort for purposes of business, amusement, lounging, or assignations; bills were fixed up there, servants hired, and a variety of matters performed wholly inconsistent with the sacred nature of the edifice. "The efficacy of *peascods* in the affairs of sweethearts is not yet forgotten among our rustic vulgar. The kitchen maid, when she shells green pease, never omits, if she finds one having *nine* pease, to lay it on the lintel of the kitchen door, and the first clown who enters it, is infallibly to be her husband, or at least her sweetheart," Mr. *Davy's MS. Suffolk Gloss*.  
Anderson mentions a custom in the North, of a nature somewhat similar. A Cumbrian girl, when her lover proves unfaithful to her, is, by way of consolation, rubbed with *pease-straw* by the neighbouring lads; and when a Cumbrian youth loses his sweetheart, by her marriage with a rival, the same sort of comfort is administered to him by the lasses of the village. "Winter time for shoeing, *peas-cod* time for wooing," old proverb in MS. Devon Gl. The divination by *peascods* alluded to by Mr. *Davy* is thus mentioned by *Gay*,—

As *peascods* once I pluck'd, I chanc'd to see  
One that was closely fill'd with three times three;  
Which, when I cropp'd, I safely home convey'd,  
And o'er the door the spell in secret laid;  
The latch mov'd up, when who should first come in,  
But, in his proper person,—Lubberkin!

But perhaps the allusion in *Shakespeare* is best illustrated by the following passage, which seems to have escaped the notice of all writers on this subject,—

The *peascod* greene oft with no litle toyfe  
Hee'd seeke for in the fattest fertill'st soile,  
And rend it from the stalke to bring it to her,  
And in her bosome for acceptance wooe her.

His figure, peeping out of a window, is still kept up in remembrance of the transaction, and there is an annual procession yet held at Coventry, in which the feat of Lady Godiva is attempted to be represented, without violating the principles of public decency. A newspaper of last year tells us that,—

The Godiva procession at Coventry was celebrated with much pomp last week. The lady selected for the occasion (who was a handsome-looking woman, and conducted herself with great propriety) was very differently habited from the great original she personated, being clad, from shoulder to feet, in close-fitting woven silk tights. Over this was placed an elegant pointed satin tunic, fastened by an ornamental girdle. Two handsome lace scarfs formed the body, and was fastened underneath each arm to a blonde Polka edged with gold. A zephyr's wing, in folds, descended from the shoulders, and was fastened on the bosom by a rich brooch, attached to which was a white cord and gold tassels. The head gear consisted of a pearl coronet, surmounted by a

This word has been so much misunderstood that I am compelled to be somewhat plain in defining it. Grose has *placket-hole*, a pocket-hole. Narce, Dyce, and other writers, tell us a *placket* generally signifies a petticoat, but their quotations do not bear out this opinion. According to Moor, the term is in some places applied to a shift.

Far put his hand into Florida's *placket*;  
Keep hold, said shee, nor any further go,

According to Markham, horses are said to be planet-struck when there is a deprivation of feeling or motion, not stirring any of the members, but that they remain in the same form as when the beast was first struck. It comes to a horse sometimes by choler and phlegm superabundantly mixed together; sometimes

from melancholy blood, being a cold and dry humour, which annoys the hinder part of the brain; sometimes of extraordinary heat or cold, or raw digestion striking into the veins suddenly; or lastly, from extreme hunger, occasioned by long fasting.

"Nay, then, the case is altered," quoth  
Plowden.

There *Plowden* in his laced ruff starch'd on edg  
Peeps like an adder through a quickset hedg,  
And brings his stale demur to stop the course  
Of her proceedings with her yolk of horse ;  
Then falls to handling of the case, and so  
Shows her the posture of her over-throw,  
But yet for all his law and double fees  
Shew'le bring him to joyne issue on his knees,  
And make him pay for expedition too ;  
Thus the gray fox acts his green sins anew.

**RACK.** (1) Light, thin, vapoury clouds; the clouds generally. Still in use in the Northern counties, and sometimes there applied to a mist. See the *Archæologia*, xxii. 373. "As the sunne shines through the *rack*," Du Bartas, p. 616. In some instances it appears to imply *the motion of the clouds*, and is so explained by Chapman in his translation of Homer. A disputed passage in which this word occurs, in the *Tempest*, iv. 1, "leave not a *rack* behind," merits particular consideration. Our choice lays between considering it to mean *a single fleeting cloud*, or as a form of *wreck* or *wreck*. Mr. Hunter has expressed his belief that *rack* in the first sense is never used with the indefinite article, and unless the passage now given from Lydgate tends to lighten the objection, it seems to me to be absolutely fatal to the adopted reading. On the other hand, we have *rack* in the old folios of Beaumont and Fletcher, where the sense requires *wreck*. See Mr. Dyce's edition, vii. 137. On the whole, then, unless *rack* can elsewhere be found with the indefinite article, it appears safer to adopt *wreck*, which certainly agrees better with the context. Upton, *Critical Observations*, ed. 1748, p. 213, supposes it to mean a track or path, in which sense it is still used in the North. See our second meaning, and Brockett, who adopts Upton's explanation of the Shakespearean

passage; but there is no good authority for anything of the kind, although Brockett is as decisive as if he had possessed the reading and knowledge of Gifford.

As Phebus doeth at mydday in the southe,  
When every *rak* and every cloudy sky  
Is voided cleene, so hir face uncouth  
Shall shewe in open and fully be unwry.

Thus a papal bull with many seals is termed a *rageman* in Piers Ploughman, p. 5; and the list of names in Fame's book is called *ragman roll* in Skelton, i. 420. See also Plumptre Corr. p. 168. In a letter of Henry IV. dated 1399, printed in Rymer, mention is made of *litteras patentes vocata raggemans sive blank chartres*. In Piers Ploughman, p. 461, it seems to mean a person who made a list or ragman.

- (2) An ancient game at which persons drew by chance poetical descriptions of their characters, the amusement consisting, as at modern games of a similar kind, in the peculiar application or misapplication of the verses so selected at hazard by the drawers. This meaning of the term was first developed by Mr. Wright in his *Anecdota Literaria*, 8vo. 1844, where he has printed two collections of ancient verses used in the game of ragman. Mr. Wright conjectures that the stanzas were written one after another on a roll of parchment, that to each stanza a string was attached at the side, with a seal or piece of metal or wood at the end, and that, when used, the parchment was rolled up with all the strings and their seals hanging together, so that the drawer had no reason for choosing one more than another, but drew one of the strings by mere chance, on which the roll was opened to see on what stanza he had fallen: if such were the form of the game, we can very easily imagine why the name was applied to a charter with an unusual number of seals attached to it, which when rolled up would present exactly the same appearance. Mr. Wright is borne out in his opinion by an English poem termed *Ragmane roelle*, printed from MS. Fairfax 16:

My ladies and my maistresses echone,  
Lyke hit unto your humbyble wommanhede,  
Reave in gré of my sympill persone  
This rolle, which withouten any drede  
Kynge Ragman me had me sowe in brede,  
And cristyned yt the merour of your chaunce;  
Drawith a stryng, and that shal streight yow leyde  
Unto the very path of your governaunce.

That the verses were generally written in a roll may perhaps be gathered from a passage in Douglas's *Virgil*,—

With that he raucht me ane roll: to rede I begane,  
The royetest ane ragment with mony ratt rime.

Where the explanation given by Jamieson seems to be quite erroneous.

Venus, whiche stant withoute lawe,  
In non certeyne, but as men drawe  
Of Ragemon upon the chaunce,  
Sche leyeth no peys in the balace

The performers are usually dressed in a white frock, or covered with a shirt, to which as also to their hats, or paper helmets, are appended long black ribands. They frequently go from house to house, about Christmas, and are treated with ale after their military exercise. At merry-nights, and on other festive occasions, they are introduced one after another by the names and titles of heroes, from Hector and Paris, princes of Troy, down to Guy of Warwick. A spokesman then repeats some verses in praise of each, and they begin to flourish the rapier. On a signal given, all the weapons are united, or inter-

- laced, but soon withdrawn again, and brandished by the heroes, who exhibit a great variety of evolutions, being usually accompanied by slow music. In the last scene, the rapiers are united round the neck of a person kneeling in the centre, and when they are suddenly withdrawn, the victim falls to the ground; he is afterwards carried out, and a mock funeral is performed with pomp, and solemn strains. *Willan's Yorksh.*

RING-FENCE. A property situated compactly together is said to be in a ring-fence.

RING-FINGER. The finger on which the ring is placed in marriage. The Romish Church encouraged the notion of immediate intercourse between the heart and the *ring-finger*. In the Hereford, York, and Salisbury Missals, the mystical ring is directed first to be put on the thumb, then upon the first, then upon the second, and lastly, on the third finger, where it is to remain, *quia in illo digito est quedam vena procedens usque ad cor*.

As for the ring-finger, which is so called, because commonly a ring is worn on it, especially on the left hand, the physicians and anatomists give the reason of it, because in the finger there is a sinew very tender and small that reaches to the heart; wherefore it ought to wear a ring as a crown for its dignity. But besides observe, that in the ceremonies of marriage, they first put the matrimonial ring on the thumb, whence they take it, and put it on every one till they come to this, where it is left. Whence some who stood (as Durand in his *Rational of Divine Offices*) to discourse on these ceremonies, say it is done because that finger answers to the heart, which is the seat of love and the affections. Others say, because it is dedicated to the sun, and that most rings are of gold, a metal which is also dedicated to it: so that by this sympathy it rejoices the heart.

(2) Properly, a rider or trooper, from the German; but the term was usually applied to a fine, dashing, boasting gallant; one so fashionable as to speak much in foreign languages.

Some authors have compared it to a *rutter's* cod-piece, but I like not the allusion so well, by reason the tyngs have no correspondence; his mouth is allwaies mumbling, as if hee were at his mattens; and his beard is bristled here and there like a sow.

**RYNT.** "*Rynt ye*, by your leave, stand handsomly; as, *rynt you*, witch, quoth Besse Locket to her mother," Ray's *Words*, ed. 1674, p. 39. The older form of this word is *aroint* (q. v.) and its proper explanation is of so much importance, that I am tempted to give the following extract from a *MS.* communication transmitted to me by a native of Lancashire.

"The word *roint* is, or was thirty years ago, a common Lancashire provincialism. I have heard it used, scores and scores of times, in a sense I will presently state. But first as to its orthography; if I had never seen the word, and been asked to spell it from hearing it pronounced, I should certainly have written

*roynt*, for though to a southern the sound would be much more like *rynt*, yet one accustomed to the dialect would know that the *o* was not altogether lost, any more than it is in *royal*, *loyal*, *boy*, which are pronounced in a somewhat similar way; the lost *o* to me has no difficulty in being distinguished as incorporated in the force given to the pronunciation of the *r*. Now as to the sense in which the word is applied, I must premise that in the part of the country in which I was born, it is usual (except in the summer season) to milk the cows in what is called a shippon; these shippons have what are called *boosts* (stalls similar to those in a stable, only wider, and the sides are lower); each boost accommodates *two* cows. When the milkmaid comes with her pail and stool, it frequently happens that the cow is standing close to the right hand division or partition of the boost, so that no space is left for her to plant her milkingstool; sometimes the cow obstinately resists gentle means used to induce her to move aside towards the left, when the milkmaid, losing her temper, uses the expression *roynt ta*, accompanied with a push against the side of the cow's rump, to force her to make the movement required. When used as a 'household' word, which it sometimes, though seldom, is, it denotes an angry and insulting mode of saying, 'stand aside, get out of my way,' or rather 'out of my gait.' This is the sense in which the proverb above given includes the expression."

Boucher, in v. *Aroint*, asserts that he has heard the word in Cheshire, but it was not always confined to that county. In Thorpe's letter to Ray, 1703, I find "*Ryndia*, used to cows to make them give way and stand in their stalls or booysea." This sufficiently confirms the explanation above given.

A thing of mickle worth,  
And so all, at the bed-side,  
Took leave of Arthur and his bride.

*Song of Arthur of Bradley.*

*To make a sack-posset.*

Take two quarts of pure good cream, a quarter of a pound of the best almonds, stamp them in the cream and boll amber and musk therein; then take a pint of sack in a bason, and set it on a chafing-dish till it be blood warm; then take the yolks of twelve eggs, with four whites, and beat them very well together; and so put the eggs into the sack, and make it good and hot; let the cream cool a little before you put it into the sack; then stir all together over the coals, till it be as thick as you would have it; if you take some amber and musk, and grind it small with sugar, and strew it on the top of the posset, it will give it a most delicate and pleasant tast.

Taylor, ed. 1630, ii. 163.

SCALE. (1) To spread; to disperse abroad. *North*. The term is an archaism. It is found in Hall, Richard III. f. 15, "sodenly *scaled* and departed." The word occurs in Coriolanus, i. 1, but is there a misprint for *stale*, as distinctly proved by Gifford, and still more elaborately in Dyce's Remarks, p. 158. The observations of Brockett on this passage, which he quite misunderstands, lead me to observe that, with a few trifling exceptions, the very worst annotations on Shakespeare have proceeded from the compilers of provincial glossaries, to whom the philological student would be more deeply indebted if they would confine themselves to the correct explanation of words in actual use, without entering into subjects that require a distinct range of reading and study.

(2) To weigh as in scales. "A *scald* pottle," a pottle of the right measure.

SCAMBLING. Sprawling. *Heref*.

SCAMBLING-DAYS. Days in Lent, when no regular meals were provided, but every one scrambled and shifted for himself as he could.

**SCAME.** To hurt, or injure.

**SCAMELS.** This word, which occurs in the Tempest, and is most probably a misprint, has baffled all annotators on Shakespeare. *Scamell* is the generally received reading, but cannot be correct on account of the quantity of the first syllable. Mr. Dyce conjectures *staniels*, but surely a trisyllable cannot be right. Read *stannels*, and we may perhaps have the true word. "A stannel, *tinmunculus*," Coles. If I recollect rightly, this was one of the conjectures proposed by Theobald.

(3) A scarecrow. *Palgrave.*

(4) A bare and broken place on the side of a mountain, or in the high bank of a river. *North.* Ray explains it "the cliff of a rock, or a naked rock on the dry land," and thinks it is the origin of the name of Scarborough. The definitions here given do not, however quite convey the ancient meaning of *scar*, which must be interpreted a *precipice*. "Verie deepe *scarrie* rockes," Harrison's Britaine, p. 93. *Scarry*, full of precipices, Craven Glossary, ii. 102. "A scar, cliff, *mons præruptus*," Coles. The passage in Shakespeare, "men make ropes in such a *scarre*," is difficult of explanation; but the old text, obscure as it is, is certainly to be preferred to any emendation yet proposed. Mr. Knight's explanation is nearly as difficult as the text, and although, as he remarks, Shakespeare is accustomed to the use of strong metaphorical expressions, yet we may fairly doubt whether, in the whole range of his plays, such an unnatural and forced construction is adopted as in the passage printed with Mr. Knight's punctuation. Looking fully at the context, I would explain it thus. Diana, at the moment of uttering this speech, is on the point of pretending to yield to Bertram's wishes; she has combated his assurances of sincerity in the vows of love, but apparently struck with the urgency of his arguments, she says, *I see that men make ropes in such a scarre, that we'll for sake ourselves*; I see that men make reasons to assist their views even in such a barren difficult subject, that we will desert ourselves, and yield to them. Then comes the result, "Give me that ring;" and no further solicitation is necessary on Bertram's part, who wins "a heaven on earth," by producing arguments for a course which no proper reasons could justify, in short, by making "ropes in such a *scarre*."

He looked abowte; thanne was he warre

Of an ermytage undir a *skerre*.

*MS. Lincoln A. 1. 17*, f. 123.

Thy windows all are shut in this dark cave:

Thy eyes clos'd up; and when, like *sealed doves*,

Thou fain wouldst flutter upward, light to have,

This flesh to thee united will not move,

But draws thee back, and clips thy soaring wings,

Or at thy loft'st pitch thee downward flings.

*Clobery's Divine Glimpses, 1669, p. 78.*

SEAM. (1) A horse-load of wood. Ray gives this as a *Sussex* word, but it seems to have fallen out of use in that county. See, however, Marshall's *Rural Economy of the West of England*, i. 398, who gives it as a *West Devonshire* word.

(3) The touchhole of a pistol. Hence used

metaphorically for the pudendum muliebre. *Light of the seare* is, of course, equivalent to light-heeled, loose in character. *Tickle of the sear*, wanton, immodest. The commentators have never yet satisfactorily explained a passage in Hamlet, ii. 2, "the clown shall make those laugh, whose lungs are tickled o' the sear," i. e., those whose lungs are wanton, or excited to laughter by coarse ribaldry. That this is the correct explanation there cannot, I imagine, be the slightest doubt. "Discovering the moods and humors of the vulgar sort to be so loose and tickle of the seare," Howard's *Defensative*, 1620, ap. Douce, ii. 230. These senses of the word have never before been developed.

 (13) The Deity is mentioned in the Towneley *Mysteries*, pp. 97, 118, as He that "sett alle on seven," i. e., set or appointed everything in seven days. A similar phrase at p. 85 is not so evident. It is explained in the glossary, "to set things in, to put them in order," but it evidently implies in some cases an exactly opposite meaning, to set in confusion, to rush to battle, as in the following examples. "To set the steven, to agree upon the time and place of meeting previous to some expedition," West. and Cumb. Dial. p. 390. These phrases may be connected with each other. Be this as it may, hence is certainly derived the phrase to be at sixes and sevens, to be in great confusion. Herod, in his anger at the Wise Men, says,—  
 Bot he thay past me by, by Mahowne in heven,  
 I shalle, and that in hy, set alle on ses and seven  
 Trow ye a kyng as I wyl suffre thaym to seven

SHROUDES. Clothes. (*A. S.*)

SHROVE. To be merry; probably derived from the sports and amusements of Shrovetide. "One that loveth to *shrove* ever and make good cheere," Florio, p. 59. *Shrove-Prentices*, a phrase which has never been correctly explained, was a name given to a set of ruffianly fellows, who took upon them at Shrovetide the name of London Prentices, and in that character invaded houses of ill-fame.

Drunk in a brothell house, are bid to pay.

SHROVE-TUESDAY. Perhaps the following account of Shrove-Tuesday by Taylor, the Water Poet, is one of the most curious and illustrative that could be produced in explanation of the numerous allusions in early writers to the feasting and sports in vogue on that day. "Welcome merry Shrovetide," Shakespeare, 2 Henry IV. v. 3.

Alwayes before Lent there comes wadding a fat grosse bursten-gutted grooms, called Shrove-Tuesday, one whose manners shewes that he is better fed then taught: and indeed he is the onely monster for feeding amongst all the dayes of the yeere, for he devours more flesh in foureteeen houres, then this whole kingdom doth (or at the least should doe) in six weekes after: such boyling and broyling, such roasting and toasting, such stewing and brewing, such baking, frying, mincing, cutting, carving, devouring, and gorbelyed gurmondizing, that a man would thinke people did take in two months provision at once into their paunches, or that they did ballast their bellies with meate for a voyage to Constantinople or to the West Indies. Moreover, it is a goodly sight to see how the cookes in great men's kitchins doe fry in their masters suet, and sweat in their owne grease, that if ever a cooke be worth the eating it is when Shrove-Tuesday is in towne, for he is so stued and larded, roasted, basted, and almost over roasted, that a man may eate the rawest bit of him and never take a surfet. In a word, they are that day extreme cholericke, and too hot for any man to meddle with, being monarchs of the marow-bones, marquesses of the mutton, lords high regents of the spit and the kettle, barons of the gridiron, and sole commanders of the fryingpan. And all this hurly burly is for no other purpose but to stop the mouth of this land-wholesale Shrove-Tuesday. At whose entrance in the morning all the whole kingdom is in quiet, but by that time the clocke strikes eleven, which (by the helpe of a knavish sexton) is commonly before nine, then there is a bell rung, cald The Pancake Bell, the sound whereof makes thousands of people distracted, and forgetfull either of manner or humanity: Then there is a thing cald wheaten flowre which the sulphory necromantlicke cookes doe mingle with water, egges, spice, and other tragicall magicall inchantments, and then they put it by little and little into a frying-pan of boyling suet, where it makes a confused dismal hisling (like the Lernean snakes in the reeds of Acheron, Stix or Phlegeton) untill at last by the skill of the cooke, it is trans-

form'd into the forme of a flap-jack, which in our translation is cald a pancake, which ominous incantation the ignorant people doe devoure very greedily (having for the most part well dined before): but they have no sooner swallowed that sweet candied balte, but straight their wits forsake them, and they runne starke mad, assembling in routs and throngs numberlesse of ungoverned numbers, with unwill civill commotions. Then Tim Tatters (a most vallant villaine) with an ensigne made of a piece of a bakers mawkin fixt upon a broome-staffe, he displays his dreadfull colours, and calling the ragged regiment together, makes an illiterate oration, stuf with most plentifull want of discretion: the conclusion whereof is, that somewhat they will doe, but what they know not. Untill at last comes marching up another troope of tatterdemallians proclaimyng wars against no matter who, so they may be doing. Then these youths arm'd with cudgels, stones, hammers, rules, trowels, and hand-sawes, put play-houses to the sacke, and bawdy houses to the spoyle, in the quarrell breaking a thousand quarrels (of glasse I meane) making ambitious brickbats breake their neckes, tumbling from the tops of lofty chimnies, terribly untynling houses, ripping up the bowels of feather-beds, to the enriching of upholsters, the profit of plaisterers, and dirt-dawbers, the gaine of glasiars, joyners, carpenters, tylers, and bricklayers And which is worse, to the contempt of justice for what avails it for a constable with an army of reverend rusty bill-men to command peace to these beasts, for they with their pockets instead of pistols, well char'd with stone-shot, discharge against the image of authority whole volleys as thicke as hayle, which robustious repulse puts the better sort to the worse part, making the band of uncrowned halberdiers retyre faster then ever they came on, and shew exceeding discretion in proving tall men of their heeles. Thus by the unmanerly manners of Shrove-Tuesday constables are baffled, bawds are bang'd, punkes are pillag'd, panders are plagued, and the chiefe commanders of these valourous villiacoes, for their reward for all this confusion, doe in conclusion purchase the inheritance of a jayle, to the commodity of jaylors, and discomodity to themselves, with a fearefull expectation that Tiburne shall stoppe their throats, and the hangman take possession of their coates, or that some beadle in bloody characters shall imprint their faults on their shoulders. So much for Shrove-Tuesday, Jacke-a-Lents Gentleman Usher, these have bene his humours in former times, but I have some better hope of reformation in him hereafter, and indeed I wrote this before his coming this yeere 1617. not knowing how hee would behave himselfe; but tottering betwixt despair and hope, I leave him.

**SIN-EATERS.** It was an ancient custom at funerals to hire poor people, who were to take upon them the sins of the deceased.

Within the memory of our fathers, in Shropshire, in those villages adjoining to Wales, when a person dyed, there was notice given to an old sire, (for so they called him,) who presently repaired to the place where the deceased lay, and stood before the door of the house, when some of the family came out and furnished him with a cricket, on which he sat down facing the door. Then they gave him a groat, which he put in his pocket; a crust of bread, which he eat; and a full bowle of ale, which he drank off at a draught. After this he got up from the cricket and pronounced, with a composed gesture, the *case and rest of the soul departed, for which he would pawn his own soul*. This I had from the ingenious John Aubrey, Esq., who made a collection of curious observations, which I have seen, and is now remaining in the hands of Mr. Churchill, the bookseller. How can a man think otherwise of this, than that it proceeded from the ancient heathens?

*Holinshead, Description of Scotland, p. 14.*

The second kind is called in Scotland a *slouth-hound*, being a little greater then the hunting hound, and in colour for the most part browne, or sandy-spotted. The sence of smelling is so quicke in these that they can follow the footsteaps of theefe, and pursue them with violence untill they overtake them; and if the theef take the water, they cast in themselves also, and swim to the other side, where they find out againe afresh their former labor, untill they find the thing they seeke for: for this is common in the borders of England and Scotland, where the people were wont to live much upon theft, and if the dog brought his leader unto any house, where they may not be suffred to come in, they take it for granted that there is both the stolen goods and the theef also hidden.

SLICKENSIDES. A species of mineral substance found in some mines, the effects of which are terrific. A blow with a hammer, a stroke or scratch with a miner's pick, are sufficient to blast asunder the massive rocks to which it is found attached.

The mines in Eyamedge are very deep, and the New-engine mine I have heard stated as being the deepest in Derbyshire. Among the number in the edge is the Hay-cliff, a mine distinguished for having contained in great abundance of that extraordinary phenomenon in the mineral world provincially called *slickensides*. It is a species of gelena, and is well known amongst mineralogists. This mine once had it in singular quantity and quality. One writer says, "The stroke is immediately succeeded by a crackling noise, accompanied with a noise not unlike the mingled hum of a swarm of bees; shortly afterwards an explosion follows, so loud and appalling that even the miners, though a hardy race of men, and little accustomed to fear, turn pale and tremble at the shock." Of the nature of this mineral, and its terrible power, there have been a many but quite unsatisfactory solutions. Whitehurst, in his work on the formation of the earth, thus mentions its wonderful power:—"In the year 1737, an explosion took place at the Hay-cliff mine, Eyam, by the power of slickensides. Two hundred barrels of materials were blown out at one blast, each barrel containing 360 lbs. weight. During the explosion the earth shook as by an earthquake." A person of the name of Higginbotham once but narrowly escaped with life, by striking incautiously this substance in the above mine. Experienced miners can, however, work where it greatly abounds without much danger. It is also known by the name of "cracking-whole."

This cometh by some dangerous sliding or slipping, wherby the shoulder parteth from the breast, and so leaves an open rift, not in the skin, but in the flesh and flime next under the skin, and so he halteth and is not able to goe; you shal perceive it by tralling his legges after him in his going. The cure according to Martin is thus: First put a paire of strait pasternes on his fore-feet, keeping him still in the stable without daquieting him. Then take of dialthea one pound, of sallit-oyle one pinte, of oyle de bayes halfe a pound, of fresh butter halfe a pound; melt al these things together in a pipkin, and annoint the grieved place therewith, and also round about the inside of the shoulder, and within two or three daies after, both that place and all the shoulder besides will swell. Then either prick him with a lancet or fleame in al the swelling places, or else with some other sharp hot iron, the head whereof would be an inch long, to the intent that the corruption may run out, and use to annoint it still with the same ointment. But if you see that it will not go away, but swell still, and gather to a head, then lance it where the swelling doth gather most, and is soft under the finger, and then taint it with flax dipt in this ointment; take of turpentine and of hoggs grease of each two ounces, and melt them together, renewing the taint twice a day until it be whole.

Squailing therefore is often very awkward, performed, because the thing thrown cannot be well directed; hence the word *squailing* is often used in ridicule, not only of what is done awkwardly, but what is untowardly or irregularly shaped. "She went up the street *squailing* her arms about, you never saw the like:" an ill shaped loaf is a *squailing* loaf; Brentford is a long *squailing* town; and, in Wiltshire, Smithfield Market would be called a *squailing* sort of a place.

cure, proceed to Kedleston, about three miles distant, in search of a squirrel. They gather themselves round the fine oaks and elms in the park, and with the noise of their instruments and their loud halloos soon succeed in starting one amongst the boughs. This they chase from tree to tree, until stunned with the noise, and wearied with exertion, it falls to the ground, and is captured; it is carried back in triumph to Duffield, and not unfrequently undergoes the torment of a second hunt in a wood near the village. Whether this is the remains of a privilege of hunting in the forest of Duffield, possessed by the inhabitants or not, I know not, but many unsuccessful attempts have been made to stop it, the inhabitants always asserting their right to hunt. STALKING-HORSE. A horse real or fictitious, by which a fowler screens himself from the sight of the game.

What a sile buzzard it is! A man can scarce get a shoot at him with a *stalking-horse*. He has been scar'd sure.

*Clarke's Phrasologia Puerilis*, 1655, p. 126.

There is no getting at some fowl without a *stalking-horse*, which must be some old jade trained up for that purpose, who will gently, as you would have him, walk up and down in the water which way you please, flooding and eating the grass that grows therein; behind whose fore-shoulder you are to shelter yourself and gun, bending your body down low by his side, and keeping his body still full between you and the fowl. When you are within shot take your level from before the fore-part of the horse, giving fire as it were between his neck and the water, which is much better shooting than under his belly. Now to supply the defect of a real *stalking-horse*, which will take up a great deal of time to instruct and make fit for this exercise, an artificial one may be made of any piece of old canvas, which is to be shap'd in form of a horse, with the head bending downwards, as if he gras'd. It may be stuffed with any light matter, and should be painted of the colour of a horse, whereof brown is the best; in the middle let it be fixt to a staff, with a sharp iron at the end, to stick into the ground as occasion requires, standing fast while you take your level; and farther, as it must be very portable, it should also be moved, so as it may seem to graze as it goes; neither ought its stature be too high or too low, for the one will not hide the body, and the other will be apt to fright the fowl away. But when you have so beat the fowl with the *stalking-horse* that they begin to find your deceit, and will no longer endure it, you may stalk with an ox or cow made of painted canvas, till the *stalking-horse* be forgot, while others again stalk with stags, or red deer, formed out of painted canvas, with the natural horns of stags fixed thereon, and the colour so lively painted that the fowl cannot discern the fallacy.

(7) *Riding the stang*. This is a custom well known throughout the North, and intended for the benefit of those husbands who beat their wives. Formerly the offending party was forcibly mounted across a *stang* or pole, on which he was conveyed with a rabble at his heels through the town or village, and compelled to listen to the proclamation of his unmanly conduct, accompanied with the noise of tin cans, horns, &c. But now some one of the assembled multitude, consisting chiefly of boys, is elevated on a pole or ladder, and gives utterance to the following doggrel verses:

Ran, Dan, Dan, the sign of our old Tin Can,  
Taylor Wood has been beating his good woman;

He beat her with neither stick, stone, nor stower,  
But up'd with his goose and knock'd her ower.

If ever he does the like again,

As we suppo-e he will,

We'll mount him on a nanny goat,

And ride him down to hell.

So runs a version obtained some years ago at Louth by Mr. Adeock, and probably continues to this day. In the neighbourhood of Lincoln there is a considerable variation. The cry or proclamation is as follows:

Ran, Tan, Tan, the sign of the old Tin Can;

Stephen Smith's been paying his daughter Nan;

He paid her both behind and before,

He paid her 'cause she wouldn't be his whore.

He lick'd her neither with stake nor stower,

But up w! his fist and knock'd her ower.

Now if Steenie Smith don't mend his manners,

The skin of his . . . shall go the tanner's:

And if the tanner don't tan it well:

Skin, tanner, and . . . shall go to hell.

**STIFFLE.** A complaint in horses.

The horse is said to be *stified* when the stifling bone is removed from the place; but if it be not removed nor loosened, and yet the horse halteth by means of some grieve there, then we say that the horse is hurt in the stifle, and not stifled. The stifle cometh by means of some blow, or some great straine, slipping or sliding. The signes be these. If he be stifled, the one bone will stick out farther than the other, and is apparant to the ele. Martin woulde have you to cure the stifle in al points like unto the shoulder-pight, saving that the pins need not bee so long, because the stifling place is not so broad as the shoulder, and standing in the stable; let him have a pasterne with a ring on his forelegge, and thereunto fasten a cord, which cord must go about his necke, and let it be so much strained as it may bring his sore legge more forward than the other to keepe the bone from starting out. But if the horse bee but hurt in the stifle with some stripe or straine, then the bone will not stand out, but perhaps the place may be swollen. The cure according to Martin is thus. First annoint the place with the ointment mentioned before, every day

once the space of a fortnight, and if the horse amend not with this, then rowel him with a hearen rowel, or else with a quill, and let the neather hole be somewhat before the sore place, and cleanse the hole every day by turning the rowel, continuing still to annoint the place with the ointment aforesaid, and that will make him whole.

Colemdowne is the place so famous and so frequented for stobball playing. The twife is very fine, and the rock freestone is within an inch and half of the surface, which gives the ball so quick a rebound. A stobball-ball is of about four inches diameter, stuffed very hard with quills, sowed into soale leather, and as hard as a stone. I doe not heare that this game is used anywhere in England but in this part of Wiltshire, and Gloucestershire adjoining. They strike the ball with a great turned staff of about four feet long." STOOL-BALL. An ancient game at ball, played by both sexes. According to Dr. Johnson, it is a play where balls are driven from stool to stool. See a further notice in Strutt, p. 97. In Lewis's English Presbyterian Eloquence, p. 17, speaking of the tenets of the Puritans, he observes that "all games where there is any hazard of loss are strictly forbidden; not so much as a game at *stool-ball* for a Tansay, or a cross and pyle for the odd penny at a reckoning, upon pain of damnation." This quotation is given by Brand, in his Pop. Antiq. The following is from Herrick's *Hesperides*, 1648, p. 280:

At *stool-ball*, Lucia, let us play

For sugar-cakes and wine;

Or for a tansie let us pay,

The losse be thine or mine.

If thou, my deere, a winner be

At trundling of the ball,

The wager thou shalt have, and me,

And my misfortunes all.

Poor Robin, in his Almanack for 1677, in his

Observations on April, opposite the 16th and 17th, Easter Monday and Tuesday, says,—

Young men and maids,  
Now very brisk,  
At barley-break and  
Stool-ball frisk.

SWITHIN (ST.) The notion current, I believe, pretty extensively, that if we have rain on this day, not one of the next forty will be wholly without, is still in full force among us. Nares notices it as an old and often revived superstition; referring to ample illustrations thereof in Pop. Ant., where it is not, however, mentioned that Ben Jonson, in his Every Man out of his Humour, introduces it. In Alban Butler's Lives of the Saints, Swithin is recorded; but nothing is said of the rainy prodigy. *Moor.*

**SWORD-DANCING.** There is a very singular custom, called *sword-dancing*, prevalent in many parts of Northumberland, and in the county of Durham, during the Christmas holidays, which seems to be peculiar to the northern part of the kingdom. The sword-dancers are men entirely or chiefly composed of miners or pitmen, and of persons engaged in the various other vocations of a colliery, who, during the week intervening between Christmas and New Year's Day, perambulate the country in parties, consisting of from twelve to twenty, partly in search of money, but much more of adventure and excitement. On these occasions they are habited in a peculiarly gaudy dress, which, with their dancing, principally attracts attention. Instead of their ordinary jackets they wear others, composed of a kind of variegated patchwork, which, with their hats, are profusely decorated with ribands of the gayest hues, prepared and wrought by their sisters or sweethearts, the sword-dancers being usually young and unmarried men. This, with slight individual variations, is the description of dress worn by all the members of a sword-dancing party, with the exception of two conspicuous characters invariably attached to the company, and denominated amongst themselves respectively the *Tommy* (or fool) and the *Bessy*. Those two personages wear the most frightfully grotesque dresses imaginable; the former being usually clad in the skin of some wild animal, and the latter in petticoats and the costume of an old woman; and it is the office of those two individuals, who play by far the most important part in sword-dancing excursions, to go round amongst the company which collects to see them dance, and levy contributions in money, each being furnished for this purpose with a huge tin or iron box, which they rattle in the faces of the bystanders, and perform other antics and grimaces to procure subscriptions. A fiddler also is an indispensable *attaché* to a company of sword-dancers; and it is the business of another of the party to carry about a change of wearing apparel for his comrades, which becomes necessary when they make protracted journeys, as they sometimes do, into the country, going round amongst the towns and hamlets, and farm-steadings, and exhibiting their dance before the inhabitants. This is a peculiar kind of dance, which it would be vain to attempt to describe. It bears some resemblance to an ordinary quadrille dance, with this difference, that the sword-dancers are each furnished with long steel wands, which they call swords, and which they employ with a very peculiar and beautiful effect during the dance. The dance is sometimes accompanied with a song, and a fragment of dramatic action. The fiddler accom-

panies the song in unison with the voice, repeating at the end of each stanza the latter part of the air, forming an interlude between the verses; during which the characters are introduced by the singer, make their bow and join the circle.

1. The first that I call in he is a squire's son;  
He's like to lose his love because he is too young.
2. Altho' he be too young, he has money for to rove  
And he'll freely spend it all before he'll lose his love.
3. The next that I call in, he is a sailor bold,  
He came to poverty by the lending of his gold.
4. The next that I call in, he is a tailor fine,  
What think you of his work? he made this coat of mine.
5. The next that I call in, he is a keelman grand,  
He goes both fore and aft, with his long sett in his hand.
6. Alas! our actor's dead, and on the ground he's laid,  
Some of us must suffer for't, young man, I'm sore afraid.
7. I'm sure 'twas none of me, I'm clear of the crime,  
'Twas him that follows me, that drew his sword so fine.
8. I'm sure 'twas none of me, I'm clear of the fact,  
'Twas him that follows me that did the bloody act.
9. Then cheer up, my bonny lads, and be of courage bold,  
We'll take him to the church, and bury him in the mould.
10. Cox-Green's a pretty place, where water washes clean,  
And Painslaw's on a hill, where we have merry been.
11. You've seen them all call'd in, you've seen them all go round,  
Wait but a little while, some pastime shall be found.
12. Then, fiddler, change the tune, play us a merry jig,  
Before I will be beat, I'll pawn both hat and wig.

In explanation of the above, it should be stated, that after the fifth verse other characters are generally introduced in a similar manner, and then the sword-dance takes place, in which one of them is killed. After the ninth verse the doctor is introduced, and a dialogue of some length takes place, which terminates in his restoring the dead man to life.

A writer in the *Gent. Mag.* for May, 1811, tells us that in the North Riding of Yorkshire the sword-dance is performed from St. Stephen's Day till New Year's Day. The dancers usually consist of six youths, dressed in white, with ribands, attended by a fiddler, a youth with the name of *Bessy*, and also by one who personates a doctor. They travel from village to village. One of the six youths acts the part of King in a kind of farce, which consists chiefly of singing and dancing, when the *Bessy* interferes while they are making a hexagon with their swords, and is killed. *Brand's Popular Antiquities*, i. 263.

open at the sides from the shoulders down-  
wards; in the early representations of the  
tabard, it appears to have been of equal length  
before and behind, and reached a little lower  
than the loins." According to Nares, the  
name of *tabarder* is still preserved in Queen's  
College, Oxford, for scholars whose original  
dress was a tabard. "Tabard, a garment,  
*manseau*," *Palgrave*. *Verstegan* says in his  
time, the term was confined to a herald's coat.

Quat wyll thu yewe, so Cryst the save!

the Holy Communion. *Var. dial*

(2) In palmistry, a space between certain lines  
on the skin within the hand. According to  
our first extract, the table is a line reaching  
from the bottom of the little finger to the  
bottom of the first finger. It is incorrectly  
explained the "palm of the hand" in Middle-  
ton, iv. 438; but the term was certainly  
variously applied.

Hilt ys to know that the lyne that goth about the  
thombe ys cleped the lyne of lyfe or of the hert.  
The lyne that ys betwene the medyll of the pawme  
that ys betwene the thombe and the next fynger,  
is cleped *media naturalis*. The lyne that begynneth  
under the litlle fynger and strecheth toward the  
rote of the fynger next the thombe ys cleped *men-  
salis*, that is, the *table*; it ys sothely the lyne which  
is cleped the nether triangle, which is sylden  
founde, and it begynneth fro *menasalt*, strechyn

appon the joynt of the bond that is betwene the  
boone of the arme or of the hond. *Mons pollicis* is  
fro the lyne of the hert tille to the rote of the  
wombe, and strechethe itselfe to the wrist. *Mons  
manus* or the tabule begynneth fro *menasalt* to the  
wrist. *Treatise on Palmistry*, MS. xv. Cent.

Other lines also may be divided into equal sec-  
tions, as the table line, the natural line, the quad-  
rangle and triangle, which are all to be parted into  
equal portions, and according to proportion shall  
shew the time and age of life in which every ac-  
cident shall happen, which the characters shall signi-  
fie, in their several natures. This space is called  
the *table* of the hand, which hath on the one side  
the mensal line, on the other the middle natural  
line.

was used on all occasions, at theatres, sermons,  
&c. "A reproofe or a jeer out of your table-  
book notes," *Nabbes' Bride*, 1640, sig. G. ii.  
A table-book of wood is in the possession of  
Mr. J. H. Hearn, of Newport, Isle of Wight,  
and is described in the *Journal of the British  
Archæological Association*, ii. 193, but very few  
seem to have been preserved.

His *table-books* be a chiefe adjunct, and the most  
significant embleme of his owne quality that man  
may beare about him: for the wiping out of olde

notes give way to new, and he likewise, to try a new disposition, will finally forsake an ancient friends love, because hee consists of new enterprises.

Strutt has given a fac-simile of a backgammon-board from a MS. of the 14th century, which differs little from the form now used. See *Sports and Pastimes*, p. 321. "*Alea*, table," MS. Lansd. 560, f. 45.

In an old MS. collection of receipts in my possession is one "for to make a man hole that kechith cold in his slepe that he ys ny *take*;" and another "for a man that ys *take* in his slepe."

A horse which is bereft of his feeling, moving or stirring, is said to be *taken*, and in sooth so he is, in that he is arrested by so villainous a disease, yet some farriers, not well understanding the ground of the disease, conster the word *taken* to bee striken by some plannet or evil spirit, which is false, for it proceedeth of too great abundance of flemme and choler, simbolis'd together. The cure is thus. Let him blood in his spur-vains, and his breast vaines, and then by foulding him in abundant number of cloaths, drive him into an extreme sweat, during which time of his sweating, let one chafe his legs with oyle de bay, then after he hath sweat the space of two houres, abate his cloaths moderately, and thoroughly after he is dry, anoint him all over with oyle petrollum, and in twice or thrice dressing him he will be sound.

 implying (as I take it) to be a right and proper mea-  
 sure belonging unto tenants; for so the word it self  
 imports. Others more proper and agreeing unto  
 the nature of the said measure, call it curt measure;  
 likewise before the said Statute (which many unto  
 this day use) a peach of 18. 20. and 24. foote, called

And to frisking and dancing they shuffled apace,

Each lad took his lass by the fist;  
And when he had squee'd her, and gaum'd her untill  
The fat of her face ran down like a mill,  
He toll'd for the rest of the gist.

In sweat and in dust having wasted the day,  
They enter'd upon the last act of the play,

The bride to her bed was convey'd;  
Where knee deep each hand fell down to the ground,  
And in seeking the garter much pleasure was found,  
"T would have made a man's arm have stray'd."

This clutter ore, Clarinda lay  
Half bedded, like the peeping day  
Behind Olympus cap;  
Whiles at her head each twitting girl  
The fatal *stocking* quick did whirl  
To know the lucky hap.

The bridegroom in at last did rustle,  
All dissap-pointed in the bustle,

The maidens had shav'd his breeches;  
But let him not complain, tis well,  
In such a storm, I can you tell,  
He save'd his other stitches.

From the top of this gate-house was a most pleasant and delightful prospect, as it is to be seen. His lordship was wont to recreate himself in this place, to apricate and contemplate, and his little dog with him. It so happened that a Tom of Bedlam gott up the staires when his lordship was there, and came to him, and cryed, "leap, Tom, leap," offering his lo. violence to have thrown him over the battlements. His lo. was a little old man, and in his gown, and not able to make resistance, but having presentnesse of witt, seyde, "Let's first throw this little dog over." The Tom of Bedlam threw the dog down. "Pretty sport," sayde the Lord Chancelour, "goe down, and bring it up, and try again." Whilest the mad-man went down for the dog, his lordship made fast the dore of the staires, and called for help, otherwise he had lost his life by this unexpected danger." To this Aubrey appends the following note: "Till the breaking out of the civill warres Tom of Bedlams did travell about the country; they had been poore distracted men that had been putt into Bedlam, where recovering to some sobernesse, they were licentiated to goe a begging, e. g. they had on their left arm an armilla of tinn printed in some workes, about four inches long; they could not gett it off.

They wore about their necks a great horn of an ox in a string or bawdrie, which when they came to an house for almes, they did wind; and they did putt the drink given them into this horn, whereto they did putt a stopple. Since the warres I doe not remember to have seen any one of them." In a later hand is added, "I have seen them in Worcestershire within these thirty years, 1756."

**§**. This character is found in early English MSS. written after the twelfth century. It is a corruption of the Anglo-Saxon letter *y*, and sometimes answers to our *g*, sometimes to *y*, sometimes to *gh*, and also to a mute consonant at the commencement of a word. In the middle of a word it occasionally stands for *i*; in the same manner the A.-S. *g* has been changed into *i*, when in a similar position. It should be remarked that the letter *z* often appears in MSS. under this character, with which, however, it has clearly no connexion. It is, therefore, incorrect to substitute it as an equivalent for *z*, or vice versa. When it occupies the place of the Anglo-Saxon letter, no other character represents its exact force.

 And therwyth giteth ȝowr levyng,

(9) *A song, temp. Henry VI.*

What so mene seyne,  
 Love is no peyne  
 To theme serteine  
 Butt varians;  
 For they constreine  
 Ther hertes to feyne,  
 Ther mowthis to playne  
 Ther displeasuns.  
 Whych is in dede  
 Butt feynyd drede,  
 So God me spede!  
 And dowbilys.  
 Ther othis to bede,  
 Ther lyvys to lede,  
 And proferith mede  
 New-fangellenys.  
 For whenne they pray,  
 Ye schalle have nay,  
 What so they say,  
 Beware, for shame.  
 For every day  
 They waite ther pray,

Wher so they may,  
 And make butt game.  
 Thenne semyth me  
 Ye may welie as  
 They be so fre  
 In every place;  
 Hitt were peté  
 Butt they shold be  
 Begelid, perde,  
 Withoutyne grase.

 Bot in graythely he gett,  
 Syche maistres he made!  
 At his first in comyng,  
 His mere withowttene faylyng

 So nerehande he rade!  
 The kyng had ferly thaa,  
 And up his hande ganne he taa,  
 And putt it forthir hym fraa

 And what thou wille here."  
 Thanne saide the fole of the flide,

 Jisterday saw I knyghtis three,

(11) *From MS. Porkington 10, written in the reign of Edward IV.*

God that dyed for us alle,  
 And dranke bothe eyrell and galle,  
 He bryng us alle oute off bale;  
 And gyve hym good lyve and long,  
 That wold attend to my song,  
 And herkyne on to my tale.

Ther dwelyd a man in my contré,  
 The wyche hade wyrys thre;  
 Yn proses of certyn tyme;  
 Be hys fyrst wyffe a chyld he had,  
 The wyche was a propyr lad  
 And ryght an happy hynd;  
 And his fader lovyd hym ryght welle,  
 Hys steppe-dame lovyd hym never a delle,  
 I telle yow as y thynke;  
 She thought hyt lost be the rode  
 Alle that ever dyd hyme good,  
 Off mette other of drynke:  
 Not halfe ynowe thereof he had,  
 And yyt in saythe hit was fulle bad,  
 And alle hyr thought yt lost.  
 Y pray God evyll mot sche fare,  
 For oft sche dyde hym moche care,  
 As far forthe as sche durst!  
 She good wyffe to hyr husbond yone say,  
 For to put away thys boy  
 Y hold yt for the beste;  
 In sayth hē hys a lether lade,  
 Y wold som other man hym had,  
 That beter mygt hym chaste.  
 Than anone spake the good man,  
 And to hys wyff sayd he than,  
 He ys but yong of age,  
 He schall be with us lenger,  
 Tyll that he be strengier,  
 To wyn beter wage.  
 We have a mane a strong freke,  
 The wyche one fyld kypythe owr nette,  
 And slepyth half the day;  
 He schall come home be Mary myld,  
 And to the fyld schalle go the chyld,  
 And kepe hem yffe he may

 confidence, hope, and truste, that they cumme  
 daylye a pilgramage unto hym, somme withe kyne,  
 other with oxen or horais, and the reste withe money,  
 insomuche that there was fyve or syxe hundrethe  
 pilgrames, to a mans estimacion, that offered to the  
 saide image the fyfte daie of this presente monethe  
 of Aprill. The innocent people hathe ben some  
 aluryd and entisid to worshipec the saide image, in-  
 somuche that there is a commyn sayinge as yet  
 amongist them that whosoever will offer anie thinge  
 to the saide image of Davellgadarn, he hathe power  
 to fatche hym or them that so offers oute of hel
